

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	31 January 2025
Team ID	HYD-METRO-2025
Project Name	Hyderabad Metro Rail – Digital Ticketing System (ServiceNow)
Maximum Marks	4 Marks

About This Template

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Below is the completed brainstorming session output for the Hyderabad Metro Rail Digital Ticketing project on ServiceNow.

Step 1: Problem Statement

Problem Statement (How Might We...?)

HOW MIGHT WE digitize the Hyderabad Metro Rail ticket booking process so that commuters can book tickets, calculate fares, and generate QR codes digitally — eliminating queues, paper tokens, and manual fare errors — using the ServiceNow platform?

Key Rules Applied in This Session

- Stay on topic.
- Encourage wild ideas.
- Defer judgment.
- Listen to others.
- Go for volume.
- Be visual wherever possible.

Step 2: Brainstorm — All Ideas Generated

All ideas generated by the team (unfiltered, volume over value):

■ Digital Booking Channel Ideas

1. ServiceNow Service Portal catalog item for ticket booking
2. WhatsApp chatbot integration for booking via message
3. Mobile app (Android/iOS) with ServiceNow backend
4. USSD-based booking for non-smartphone users
5. Telegram/Slack bot integration for tech-savvy users

6. Email-based ticket request via ServiceNow intake
7. Dedicated metro ticketing kiosk UI on Service Portal

■ Payment & Fare Ideas

1. UPI payment integration (PhonePe, GPay, Paytm)
2. Debit/credit card payment via payment gateway
3. Digital metro card recharge through portal
4. Auto-deduct from linked bank account (like London Oyster)
5. Dynamic fare calculation based on distance/zone
6. Group booking discounts for bulk passengers
7. Monthly travel pass digital subscription

■ Ticketing & QR Code Ideas

1. QR code generation on form submission via GlideModal
2. PDF ticket download with embedded QR code
3. Email QR ticket delivery on booking confirmation
4. WhatsApp QR ticket delivery post-booking
5. Animated QR with expiry countdown timer
6. Tamper-proof QR with encrypted booking ID
7. Gate scanner validation integration with metro system

■ Data & Automation Ideas

1. Flow Designer automation to map variables to Metro Database
2. Business Rule to auto-generate ticket number on record creation
3. Role-based access control (ACL) for database security
4. Dashboard for station managers showing live bookings
5. Analytics report on peak booking times per route
6. Automated refund flow for cancelled bookings
7. Scheduled report to send daily bookings summary to operations team

Step 3: Idea Prioritization Grid

Ideas are placed on the Importance vs Feasibility grid. High Importance + High Feasibility ideas are prioritized for implementation in the current project scope.

Priority	Idea	Importance	Feasibility	Decision
P1	ServiceNow Service Catalog ticket booking form	High	High	Implement NOW
P1	Fare auto-calculation via Catalog Client Script	High	High	Implement NOW
P1	QR Code generation on form submit (GlideModal)	High	High	Implement NOW
P1	Flow Designer: variable mapping to Metro Database	High	High	Implement NOW
P1	UI Policy: conditional payment mode field	High	High	Implement NOW
P1	Role-based ACL for Metro Database table	High	High	Implement NOW
P2	Email notification on booking confirmation	High	Medium	Implement v1.1
P2	Station manager dashboard / reports	High	Medium	Implement v1.1
P2	Metro card digital recharge	Medium	Medium	Implement v1.1
P3	WhatsApp chatbot booking channel	High	Low	Future roadmap
P3	Animated QR with expiry timer	Medium	Low	Future roadmap
P3	UPI direct payment gateway integration	High	Low	Future roadmap
P4	USSD-based booking for non-smartphone users	Low	Low	Out of scope

Selected Ideas for This Project

- ✓ ServiceNow Catalog Item: Book A Metro Ticket
- ✓ 2 Custom Tables: Metro Station Details + Metro Database
- ✓ 3 Catalog Client Scripts: Fare Auto-Populate, QR Code Generator, Field Validator
- ✓ 1 Catalog UI Policy: Conditional payment mode field display
- ✓ 1 Flow Designer Flow: Metro Project (variable mapping + record creation)
- ✓ Role-Based ACLs: Secure Metro Database access
- ✓ Service Portal Widget: Metro QR Ticket display widget
- ✓ Custom Portal Page: Metro Ticket page
