

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	25 June 2026
Team ID	
Project Name	Metro Ticket Generation System Using ServiceNow
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process. The team followed a structured three-step approach.

Step 1: Problem Statement for Brainstorming

"How Might We enable metro commuters to book tickets digitally, eliminate long queues, and allow administrators to manage bookings efficiently through an automated and centralized system?"

Step 2: Brainstormed Ideas

Idea #	Idea Description	Category	Group
1	ServiceNow Service Catalog for digital metro ticket booking with automated workflow	Digital Platform	Selected Solution
2	Mobile app for QR code-based ticket booking and validation	Mobile Technology	Future Enhancement
3	Self-service kiosk with touchscreen at metro stations	Hardware Solution	Alternative
4	WhatsApp chatbot for ticket booking via messaging	Conversational AI	Alternative
5	Online payment integration with digital wallet support	Payment Tech	Future Enhancement
6	AI-powered travel assistant for route suggestions	Artificial Intelligence	Future Enhancement
7	Centralized metro admin dashboard for booking record management	Admin Tool	Selected Solution

8	SMS/Email notifications for booking confirmation	Communication	Future Enhancement
---	--	---------------	--------------------

Step 3: Idea Prioritization Matrix

Ideas were plotted on an Impact vs. Feasibility grid to determine which to implement now and which to save for later.

Idea	Impact	Feasibility / Decision
ServiceNow Service Catalog Solution	High — directly solves core booking problem	High — rapid development on existing platform → SELECTED
Mobile App	High — wide reach and convenience	Low (now) — requires additional development → Future
Kiosk at Stations	Medium — helps non-digital users	Low — hardware dependency → Alternative
WhatsApp Chatbot	Medium — accessible via existing app	Medium — platform limited → Alternative
QR Code + Payment Integration	High — complete digital experience	Medium — planned for future sprints → Future
